

Inside the ‘perversion files’

Tracking decades of allegations in the Boy Scouts

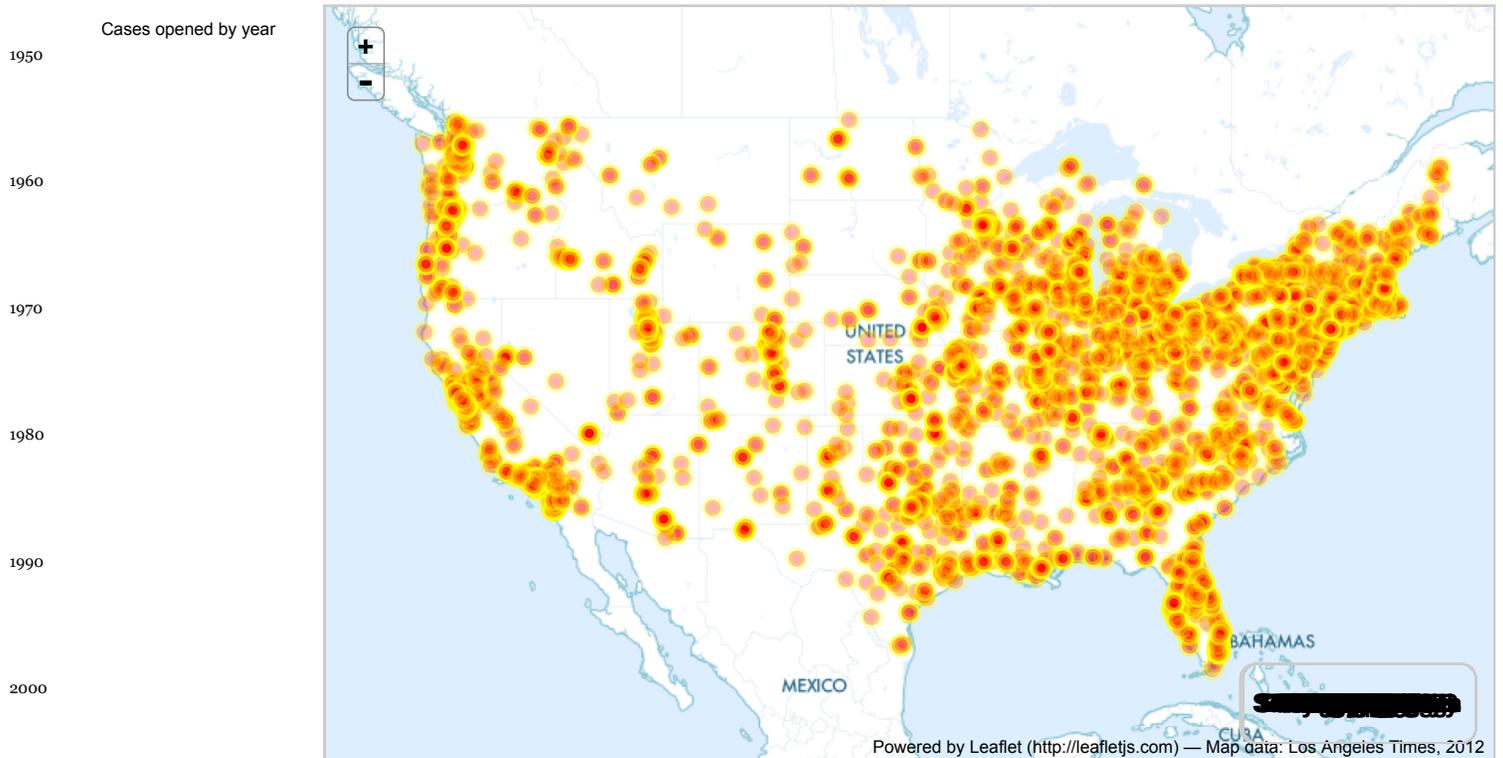

By LOS ANGELES TIMES STAFF

OCT. 18, 2012

This database contains information on about 5,000 men and a handful of women who were expelled from the Boy Scouts of America between 1947 and January 2005 on suspicion of sexual abuse. The dots on the map indicate the location of troops connected in some way to the accused. The timeline below shows the volume of cases opened by year; however, an unknown number of files were purged by the Scouts prior to the early 1990s. The data are derived from confidential Scouting files submitted as evidence in court cases.

The accused are identified below by name when files are available and by a unique number otherwise. If the same person is associated with more than one troop or unit, that name or number is repeated. Dates mark when the Boy Scouts created the file, not when the incidents are alleged to have occurred.
